[Project Management]

Team Members:

- **Perri Gallagher**

**Traditional Student Services vs.
eStudent Services and Functionalities**

- **Jim Pham**

**Information Technology, Web Portal,
and Functionalities**

- **Marilena Tamburello**

Research and Portal Functionalities

[Agenda

- Overview
- Needs Analysis
- Student Services - Overview
- Online Student Services - Web Portal & Technology
- Closing
- Q&A

[Needs Analysis]

- Institution needs
- Student needs

[Institution needs]

- Declining budget
- Competition
- Increasing online enrollment
- Retention rates
- Student success

[Student Needs]

- The “non-traditional” student needs:
- Easy access anytime, anywhere
- Learner-centered
- Personalized
- Customized
- “Just in time”
- Interactive

Student Common Needs

[Student Services - Overview]

Traditional Student Services include:

- Academic advising
- Admissions
- Assessment and testing
- Career planning
- Counseling
- Orientation
- Student information systems
- Tutoring

■ Ohlone College

- This website content refracts the list above into the functions of the campus a student might need at any given point in their college career, for example:
- Financial aid, EOPS, DSPS
- Student activities
- New/visiting student information
- Health center

Online Student Services Overview

■ Characteristics:

- Integrated: “one stop” model
- Personalized: “role based”
- Customized: “problem solving”
- Interactive: multiple comm. modes
- Pro-active push/pull technologies
- community oriented role-based portals

[Design Analysis]

- WCET Guidelines

<http://www.wcet.info/projects/laap/guidelines/index.asp>

- What students services should go online?

- Evolution or transformation?

- What technologies?

- What's the process?

[Services to redesign online]

Student Services for Online Learners

[Design Analysis]

- Who (largely) populates online classes?
- What are their needs?
- Adult learners/returning students
- Electronic “passports” to move from college to college (seeking online education)
- Centralized online assistance

[A transformational vision]

[What's the process?

- **Project Plan: (WCET guidelines)**
 - Assessment & Planning
 - Design
 - Development
 - Implementation
 - Evaluation

[Student Services Modules]

- Admissions
- Academic Advising
- Assessment & Testing
- Counseling
- Career Planning
- Orientation
- Student Information Systems
- Tutoring

[Admissions]

- Problem: “the personal touch gone from college admissions”
- Solution: Offer “the equivalent of an Amazon.com personalized welcome page for repeat visitors”

[Assessment & Testing]

- Many departments already use web-based testing.
- Benefits: Instant scores and accurate placement
- Future goals: integrating registration with testing

[Online academic advising]

Advantages:

- Any time, any place
- Easy to access
- core information online (curriculum requirements, FQA etc..)
- Integrated services facilitate student decision making (E-Lion example)

[Online academic advising]

■ Challenges:

- Provide a core of services
- Provide “individualized guidance”
- Good practices: NACADA ‘s Core values
- An adjunct service to complement f-t-f advising

[E-advising systems]

E-Lion:

http://www.our.psu.edu/eliondemo/student/demo_student_page.html

BB Community system:

<http://www.blackboard.com/products/as/communitysys/>

Datatel Colleague Student e-Advising

[Online Personal Counseling]

- **Advantages:**
- access to sensitive information anonymously
- Access anytime
- FAQs “Ask Alice”
- Chat rooms and voice web conference
- An adjunct service to complement f-t-f

[Online Personal Counseling]

Challenges

- issues of privacy and ethics
 - ACA's Standards for Internet On-line Counseling
<http://www.counseling.org/gc/cybertx.htm>
 - NBCC Practice of Internet Counseling
<http://www.nbcc.org/ethics/webethics.htm>
- chatrooms must be password protected
- staff training
- quality/relevance of information

[Sample sites]

Go Ask Alice - Columbia U.

<http://www.goaskalice.columbia.edu/index.html>

Ohlone College online counselor

<http://www.ohlone.edu/org/counseling/electcounsel.html>

Rio Hondo College

<http://www.rh.cc.ca.us/students/counseling/>

[Online Student Orientation]

Advantages

- Available anytime, anyplace
- Information is personalized and selectively released
- Continuous orientation program
- Helps build bridges with the institution prior to starting of academic year

[Online Student Orientation]

Challenges

- Must be hands-on and personal
- Must create a connection with the college
- Must create a community of students sharing academic information & interests

[Sample sites]

- University of Central Florida - New Student Virtual Orientation

<http://reach.ucf.edu/~vorient/>

<http://learn.ucf.edu/orientation/index.html>

[What is a Web Portal]

- Personalized Home Page (groups, individuals)
- Permit users to tailor and aggregate content as desired
- Have dynamically changing information
- Information channels (news, weather, other area of interests)
- Personal and event calendar
- Email
- Instant messaging

Example: Yahoo, Google, eBay, AOL

[Web Portal Solution]

[Community Portal Solution]

Community Portal Site Implementation

[MyOhlone portal]

- A one-stop online destination for all things and custom-tailoring information to fit your needs.
- Access to your academics, finances, library, computing, and any other custom information.
- Important announcements—from tuition deadlines to campus alerts
- Want to register online? Check your academic record? Plan the upcoming semester?
- Need to check your tuition balance? Want to know about your student account or financial aid?

[MyOhlone Portal]

Web Portal Online Student Services

Empower students, faculty, staff, and administrators with self service access to the information factory with a single sign-in, role aware, secure user interface ... a personalized Web portal homepage that converges all.

Web Portal Online Student Services

[Benefits

- Learner–centered
- Easy access, any time, any place
- Integrated services for **all** students
- A networked, inclusive learning community (students, faculty, staff, administrators)
- Personalized, customized information
- Increase communication exchanges

[Benefits

- Enhances, nurtures the learner's experience
- Invisible borders to information flow
- Aggregate data for better decision making.

[How much does it cost?]

There is a very wide range of costs. Implementation using commercial products and consultants could run into **millions** of dollars.

How would Ohlone implement a portal?

- A plan
- Management and funding support
- Campus consensus and participation

[Extension Roadmap]

1. Online Student Services – Web portal
2. Enterprise Resource Planning (ERP)
 - Financial Management,
 - Human Resource Management,
 - Student Administration,
 - Research Administration,
 - Marketing,
 - Strategic Management,
 - Electronic Portfolios
3. Constituent Relationship Management (CRM)

[Conclusion]

The challenge for future leaders in higher education is:

- to broaden their perspective to include people skills, theories, organizational structures, legal, strategic planning, and budgeting and...
- to understand technology trends, markets, competition, students, and their capabilities. Making eStudent Services a reality will necessitate such leaders
